Dear Jovan & Thelma,

We have been privilege to take part in the Maputo Partnership Corporate Golf Day for the past three years, both as sponsors and players.

This has always been and excellent affair, being hosted by the Hotel Cardoso , Nissan Motorcare, Joaco Cimentos and Cervejas de Mocambique (SABS).

This year, all expectations were superseded when two such lovely talented young people as you entertained us. You even got my husband to get up and "boogie"!

Not only was your performance of the highest quality, but also your ability to entertain and relate to people of such extreme diversities in culture and language was most impressive. You certainly got the "spark" and your performance was truly the most talked about highlight of the day.

To think that we drove all the way from Pretoria to Maputo in Mozambique to enjoy true South African talent!

Our only regret is that you had no CD's available. Apparently the host was swarmed by request for CD's.

We hope to *hear and see* much, much more of you in the future!

Yours Sincerely

.....
