

Hi Jovan en Thelma

In the face of our performance in George, allow me to extend a warm thanks for your professionalism and most important, congenial and enthusiastic attitude towards the arts in general. Although I get swamped with auditions and demo's, it remains a pleasure to work with young stars as yourselves who seem to have learned the trade, because that is what it is, as early and proficient as you have.

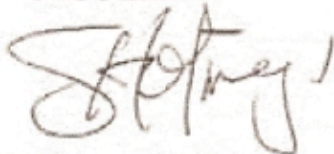

I can tell you nothing of the audience's reaction, as you were there to see for yourself; and you deserved no less.

Also, to pick the right repertoire for a given market or audience is one thing I can not teach others, but your songs were well chosen. Keep penning those originals though.

My offer remains should you decide to hop on the bus for the Cape leg of the tour, but I do understand that your aspirations are elsewhere for now.

Good luck with the cd and tell Thelma she was wonderful on Idols.

Mooimaak.
